

LHC/CMS: Very Brief Update

- LHC schedule remains to be the same as shown in our previous report a few weeks ago.
 - We expect the first circulating beam at .9 TeV on Nov. 18th.
 - CMS is planning to go to “24/7 operation with cosmic” starting on Oct. 26th, followed by the beam operation.
- Next LHC/CMS report at AEM is planned on Nov. 2nd by Jake Anderson
